ONTARIO LEGISLATURE

A DISCUSSION ON THE AMENDMENTS TO THE ADDRESS.

A Tory Trick to put the Ministery in a False Position Before the County.

TORONTO, Feb. 2.—Mr. Lyon, member for East Algoma, was introduced by Hon. G. W. Ross and Mr. H. P. O'Connor.

The debate on the on the address was continued by Hon. O. Mowat, who declined to favor the amendment by the member for North Essex (Mr. Sol. White) as the object of it was to induce the Ontario Legislature to place on record an opinion favorable to the executive action of the Dominion Government in matters which followed the Northwest rebellion. The only possible object for the motion was to do a service to the Dominion Government at Ottawa. The mover had disclaimed any such intentions, but when the Commissioner of Crown lands offered to substitute an amendment in which all could concur but which did not contain any expression of approbation for the executive action of his Ottawa friends he would not accept of it. We are not going to play into the hands of the Conservative party at Ottawa. He renewed the whole question and held that the Dominion Government was responsible for all the delay in settling and developing the territory which resulted from the rebellion. (Applause.) It would be monstrous to hold up by one single act or one single word a Government standing in that position. (Applause.) To take any part in rescuing that Government from the fate that await them would not be becoming to this House or the people of this Province. (Applause.)

The debate was continued by Messrs. Meredith, Ferris, Robillard, McMahon, Morris, Young, White and others.

Mr. White's amendment was lost on the following division:

YEAS.—Messrs. Balfour, Baskerville, Blythe, Brereton, Clancy, Creighton, Denison, Ermatinger, Fell, French, Gray, Hammell, Hess, Hudson, Kerns, Kerr, Lees, McColman, McGhee, McKay, Meredith, Merrick, Metcalfe, Monk, Morgan, Morris, Mulholland, Neelon, Robillard, Ross (C[illegible]), White Wilmot, Wood—33.

NAYS.—Messrs. Awrey, Ballantyne, Baxter, Bishop, Bizzard, Cascaden, Chisholm, Connmee, Cook, Dill, Dowling, Drury, Dryden, Ferguson, Ferris, Fraser, Freeman, Gibson (Huron), Gillies, Gould, Hagar, Harcourt, Hardy, Hart, Hawley, Laidlaw, Lyon, McIntyre, MacKenzie, McKim, McLaughlin, McMahon, Master, Morin, Mowat, O'Connor, Pardee, Phelps, Rayside, Ross (Huron), Ross (Middlesex), Sills, Snider, Waters, Young—45.

Hon. C. F. Fraser made a telling speech on the duty of the [illegible] the business of the Province and leave out reference to the Dominion Government except in cases where action has been taken by other [illegible] authority in reference to m[illegible] which the Provincial Government has to deal. He moved the following amendment to the amendment:—

That this paragraph of the main motion, now under consideration and the proposed amendment thereto express no opinion with respect to the cause or occasion of the recent disturbances or rebellion in the Northwest Territory. That any expression of opinion thereon or in respect of any of the matters or proceedings subsequent thereto, and arising thereout, or connected or bearing upon any executive govermental administration or other actions of the Federal authorities in the premises on the part of this House, would be an unwise and unwarranted intrusion upon the proper domain in that behalf of the Dominion Parliament. That this House consequently refuses to express or commit itself to any opinion bearing upon or having reference to any such matter or proceeding save to the extent and as set forth in the said paragraph, and said proposed amendment when amended as hereafter proposed, and therefore this House resolves that the said proposed amendment to the said paragraph be amended only in this respect, namely by adding thereto the following:—And this House now hopefully trusts that peace and tranquility having been fully restored it may be found consistent with the public interests to extend the merciful consideration of the Crown to those who are now undergoing imprisonment for offences connected with or arising out of the rebellion.

Mr. Meredith spoke strongly against the amendment to the amendment moved by Mr. Frazer.

A division was then taken on Mr. Fraser's amendment, with the result that it was carried by 47 to 31. Following is the list:—

YEAS.—Messrs. Awrey, Balfour, Ballantyne, Baxter, Bishop, Blezard, Cascaden, Chisholm, Connmee, Cook, Dill, Dowling, Drury, Dryden, Ferguson, Ferris, Fraser, Freeman, Gibson (Huron), Gillies, Gould, Hagar, Harcourt, Hardy, Hart, Hawley, Laidlow, Lyon, McIntyre, MacKenzie, McKim, McLaughlin, McMahon, Master Morin, Mowat, Neelon, O'Connor, Pardee, Phelps, Rayside, Ross (Huron), Ross (Middlesex), Sills, Snider, Waters, Young—47.

NAYS.—Messrs. Baskerville, Blythe, Brereton Clancy, Creighton, Denison, Ermatinger, Fell, French, Gray, Hammell, Hess, Hudson, Kerns, Keer, Lees, McColman, McGhee, McKay, Meredith, Merrick, Metcalfe, Monk, Morgan, Morris, Mulholland, Robillard, Ross (Cornwall), White, Wilmot, Wood—31.

The address was then passed as amended, and an engrossed copy was ordered to be forwarded to the Lieutenant-Governor.

Hon. O. Mowat moved the appointment of a special committee to strike the standing committees as follows:—Messrs. Awrey, Baxter, Creighton, Ferris, Fraser, Gibson, Hardy, Monk, Meredith, Morris, Merrick, A. M. Ross. Carried.

Hon. A. M. Ross gave notice that on Monday he would move that the House rsolve itself into Committee of Supply.

Hon. A. M. Ross gave notice that on Monday he would move that the House resolve itself into Committee of Ways and Means.

The House adjourned at 11:30.

A SINGULAR APPARITION.

A Dream Face at the Window haunts a Deserted house.

A Mason, Penn., despatch says: The population is excited over the mystery attached to the house lately occupied by Valentine Damm, near Pine Hollow. For some time Mr. Damm and his family have been annoyed by the appearance of a strange woman seated at the window in one of the rooms of the house. A large number of persons have seen the woman, but on entering the room it was found to be empty.

The specter is described as appearing as a slim, middle-aged woman, rather plain in appearance, possessing a broad, low forehead, banded with very dark hair, arched eyebrows coming well down under the temples. Her eyes were not seen plainly enough to be described. Her nose was well formed, while her lips were very thin and compressed. She wore what seemed to be a loose-fitting waist, and when seated she invariably rested her head on her hand and wore a pensive expression of such depth as to create a feeling of sadness in the breast of the beholder.

The family of Mr. Damm have been so annoyed by the mysterious appearance that they have left the house, and it is now vacant.

TRUST TO YOURSELF.

Globe.

Cases have been mentioned to us in which the paid Tory canvassers who are now scouring the highways and byways of this city for the names of the Conservatives to be put upon the voters' lists, have taken also the names of Liberals, saying they "would see to putting them on the list." This has been done in several large establishments through which the Tory canvassers have gone from head to foot. Now it is barely possible that those Liberal names will be properly returned to the Revising-barristers. On the other hand, it is rather more than possible they will not. When it is mentioned that these said canvassers are paid for their work out of the Tory corruption fund, and that they are engaged to do the best they can for the party, it will be seen on the whole the probabilities are that any Liberal names trusted to their tender mercies will have a very slim chance of appearing in print.

We have also heard of cases in which these same Tory canvassers have taken the declarations of miners and other unqualified persons, and no doubt these will be shot into the Revising-barrister's office along with the rest.

Liberals cannot be too careful and active if they wish to vote at the next election. Each man should look after his own vote and should do it at once. The lists for Toronto will be closed in a few days.

NEPOTISM IN ENGLAND AND CANADA

Toronto News.

Lord Iddesleigh, first lord of the treasury in the Salisbury government got highly indignant lately when the Pall Mall Gazette charged him with jobbery and nepotism. The basis of the accusation was the alleged appointment of several of his relatives to lucrative positions in the treasury department. Lord Iddesleigh at once took measures to contradict the Gazette's statements, and that paper being unable to prove them, was compelled to apologize. The indignation of Lord Iddlesleigh and the possibility of his proving that the charges were unfounded are in marked contrast to the matter-of-course way in which our Canadian ministers of the crown systematically abuse their perogatives by filling the public offices with their own and their wives' relations, and their lack sensitiveness to the criticisms passed on their conduct. There is probably not a single Ottawa minister who has not availed himself of the opportunity to foist relations or dependants upon the public service, and few, if any, of the lot who do not consider it a perfectly proper and natural proceeding. Sir. Langevin in particular, is notorious for his nepotism, having dozens of his immediate connections comfortably provided for. And public opinion does not seem to regard his conduct in the matter as disgraceful. England is behind us in many matters pertaining to government, but in this respect both public sentiment and the practice of those in positions of responsibility are greatly in advance of those obtaining here.

THE SIGNS OF WORMS are well-known, but the remedy is not always so well determined. Worm powders will destroy them.

A Strange Religious Mania.

BERLIN, Feb. 2.—Jestrobitz is a village in North Bohemia, in which a club meets regularly to indulge in table turning and other mystic amusements. The members of the club also dabble in exorcisms. A woman named Gebert, afflicted with religious mania, lately brought her husband and father-in-law to Jesterbitz to have two devils cast out. While waiting for the operation to succeed she herself lodged with the president of the club and attended the nightly spiritualistic meetings. At the end of three days she became raving mad, upon which the club, concluding that she was possessed of a devil, bound her hand and foot and exorcised her. For this interference with the liberty of the subject three members have just been prosecuted and sent to prison.

IMPERIAL AFFAIRS

GLADSTONE'S INTERVIEWS WITH THE QUEEN AND SALISBURY.

Irishmen Urged to Remain Peaceful and Give Gladstone a Chance.

LONDON, Feb. 3.—Gladstone held a conference this forenoon with Salisbury. The subject of the discussion was foreign affairs. The conference lasted twenty minutes.

Mr. Chamberlain refuses the office of first lord of the admirality. Mr. Collings will be given an important post. Mr. Morley has accepted the chief-secretaryship for Ireland, Earl Roseberry the foreign portforlio, Mr. Charles Russell the attorney-generalship, and Mr. Cohen, the solicitor-generalship.

The court Circular announces that Mr. Gladstone in the audience with the Queen, Monday, was appointed prime minister. Mr. Gladstone was unable to accept the Queen's invitation to stay at Windsor until Tuesday. It is rumoured that John Naish will be lord chancellor of Ireland, and Mr. Hempill solicitor-general of Ireland.

The Daily News says that Mr. Parnell will firmly demand that the local government question be settled by the Parliament before the land question, or that both subjects be discussed together, and that he will strenuously oppose dealing with the land question first.

Lord Richard Grosvenor, Liberal whip will be promoted in office, and Mr. Arnold Morley will succeed him as whip. Mr. Gladstone will be returned to parliament for Middlothian without opposition in the re-election necessitated by his acceptance of office.

DUBLIN, Feb. 2.—At a meeting of the league to-day Sexton, who presided, predicted that at the next election the nationalists would combine with the Liberals and [illegible] return 89 members to parliament. Ireland, he said, was satisfied with the result of the temporary power of the conservatives, who had abolished coercion and introduced a land purchase measure, establishing the principles that the state should advance money for the extinction of the landlords. He advised Mr. Gladstone to avoid violence and disorder in Ireland by assisting distressed peasants with government funds and protecting them from eviction until a bill has been passed to buy out the landlords. He urged Irishmen to remain [illegible] [illegible] efforts on behalf of Irish nationalism.

THE MERSEY MUTINEERS.

Alleged Cruel Treatment as the Principal Cause of the Revolt.

LIVERPOOL, Feb. 2.—Thirteen of the lads of the reformatory ship Clarence, who rebelled against their officers yesterday were arraigned in court this morning and charged with having been guilty of mutiny. The boys alleged as a reason for their demonstration that they had been cruelly treated by the officers of the ship. The were remanded for trial. Three officers were bound in the fight on board the ship. It is now learned that none of the lads were wounded by the fire of the officers, but a number of them were bruised in the melee.

CONTEMPORARY COMMENT.

LET HIM HANG OUT HIS SHINGLE.

Under the present Tory Government at least one new industry has been created, and made profitable. A man at Battleford has been appointed permanently "public hangman to the Dominion," and has sold out his old business to devote his sole time and attention to his new calling. He guarantees every attention to his patrons. If the present Government remains long in office and imitates the procedents it has already established in dealing with those who protest against its administration, the new officer will not fail to become expert in his new calling for want of subjects. The Macdonald Government will never have its claim to credit for creating this new office, that of a public hangman, disputed.—Ottawa Free Press.

Marriage of Miss Gladstone.

LONDON, Feb. 2.—Miss Mary Gladstone, daughter of Mr. Gladstone, was married this morning to Rev. Harry Drew, of Hawarden. The ceremony was performed in St. Margaret's Church, Westminster. Mr. Gladstone gave the bride away. Among the persons of note present were the Prince and Princess of Wales and their sons and Lord Roseberry. The bride's dress was of white muslin with Brussels lace. She wore a wreath of orange blossoms and lilies. A crowd gathered outside the church and cheered the wedding party on their arrival and departure. The weather was very pleasant and the sun shone brightly.

How They Work Things in New York.

NEW YORK, Feb. 3.—Harry Hill, his wife, a barmaid and a bartender to-day appeared before the police commissioners of this city and swore that Hill, who has no license to sell liquor, had been paying since last summer sums of money running from $50 to $100 to Detective Morgan, who stated that the money must be paid to Capt. Murphy and the higher police officials or Hill's place would be raided. Hill says he "kicked" recently when $1000 was demanded in a lump as hush money; then on Saturday night a barmaid was arrested and Hill got rid of what he called persecution.

Mr. George Tolen, Druggist, Gravenhurst, Ont., writes: "My customers who have used Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure say that it has done them more good than anything they have ever used. It has indeed a wonderful influence in purifying the blood and curing diseases of the digestive organs, the liver, kidneys, and all disorders of the system."

SCROFULA is known by swelling of the glands of the neck, abscesses, sores, a pale countenance low vitality and general signs of bad blood. Burdock Blood Bitters cures the scrofulous condition by making pure healthy blood.

A FATAL JUMP.

A Toronto Alderman's Son Dies From His Injuries.

TORONTO, Feb. 2.—About half past 10 o'clock last night Mr. Jas. E. Frankland, son of Ald. Frankland of this city, was returning from Parkdale with some companions. They attempted to jump aboard an incoming train at the crossing of Strachan avenue. The train, was howevbr, going more rapidly than it appeared to be. Young Franklin, slipped and the cars passed over his left leg. It was discovered that his left leg was crushed all to pieces above the knee joint. His right leg appeared uninjured. He bore the pain with great fortitude, and no groan or word of pain left his lips. He conversed freely during his ride. Upon his arrival at a quarter to 12 it was at once seen that amputation was necessary, but his condition was so low, that it was feared he would did under the operation. He gradually sank and died to day.

Applied to Dr. Giles, whose remedies gave her instant relief. She is now enjoying good health, and has recommended a number of her female friends to the Doctor for treatment, and all have experienced the same relief by using his Liniment Iodide Ammonia.

At the noonday prayer meeting in the old church in John street, New York, one day last week, the engineer of the Long Branch Railroad train testified that it was God who told him what to do, the doing of which prevented an appalling accident on the bridge at Matawan recently.

A SENSATION.
An unparalleled sensation is being created all over Ontario by the wonderful and unequalled manner in which Neuralgia, Toothache, Rheumatism, Backache, Headache, is removed by but one application of Fluid Lightning. No offensive, disgusting drugs need be taken for days. It is an instant cure. Try a 25 cent bottle from D.M. Waters.

If anyone says ill of you, let your life be so that none will believe him.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production of even adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy is the product of the choice section of the State, which, through some combination of local influence, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

He who strives after a long and pleasant form of life must seek to atttain continued equanimity.

PERSONAL.
Mr. Morris, late of the firm of Lazarus & Morris, from the establishment of B. Laurance, Montreal, will be at Mr. E. H. Harrison's book store, on the 10th and 11th November, for consultation. He is specially qualified to adjust spectacles to every requirement of the eye and secure to his patients such advantages as are only to be found in the large cities. No matter what the difficulties, Mr. Morris can where relief is possible, fit any eye to perfection, giving the most certain aid to sight. B. Laurance's spectacles have an acknowledged reputation for superiority everywhere. The Brazilian or Scotch Pebbles of his own manufacture are delightfully easy and pleasant to wear. There is no glimmering, wavering, dizziness or other unpleasant sensation produced by their use. They comfort, strengthen and preserve the sight, and are so durable that they will cost only one cent per week to wear. Avoid using common spectacles. They are ruinous to the sight and require changing so often that they become much more expensive in the end than the best article.
Every spectacle and eye glass is stamped with the initials "B. L." They are imitated but never equalled. Note the date of the visit. Two days only Tuesday and Wednesday November 10th and 11th.

NERVOUS DEBILITATED MEN
You are allowed a free trial of thirty days of the use of Dr. Dye's Celebrated Voltaic Belt and Electric Suspenser Appliances, for the speedy relief and permanent cure of Nervous Debility, Loss of Vitility and manhood, and all kindred diseases. Also many other diseases. Complete restoration to health, vigor and manhood guranteed. No risk is incurred, illustrate pamphlet, with full information, terms, etc mailed free by addressing Voltaic Belt Co. Marshall, Mich.

CRUTCHES RENDERED USELESS.
The poor cripple who has th use crutches on account of Rheumatism, stiff and swollen joints contracted cords, and other aches, pains and lameness, may throw aside his crutches if he will try Hagyard's Yellow Oil faithfully.

BELLEVILLE, FEBRUARY 3, 1886.

THE COUNTY TREASURER AND HIS MAN FRIDAY.

Seeing that the question of the County Treasurer's official conduct had been referred to a committee of the council to report at the June session, we had determined to let the matter rest, so far as discussion in these columns was concerned, but the lengthy concoction of lies, to which Treasurer Wills' organ treated the public yesterday, forces us to again refer to the subject.

The organ alleges that the opposition to Mr. Wills arose out of the fact that he is a Conservative. Such is not the case. Mr. Wills is supposed to be a servant of the county—in fact, a servant of the servants of the county—but he had come to act as if he were the supreme arbiter and refused to obey his instructions, in several instances to the direct loss of the county. His plea is that he disobeys only when to obey would be illegal. The fact of the matter is that on every occasion the council have been acting not only legally but having in view the best interests of their constituents. If the question of politics has come into matter—and we do not deny that it has—Thos. Wills is the person who is solely and only to blame. For no other reason than that the money would be under the control of the Ontario Government he refused, or neglected to forward the county grant for the Lonsdale and Bridgewater Colonization Road until the county had been put to an extra expense of about $50 in order that our upright and honest treasurer might be shown that the council was not acting illegally, and the much needed work long delayed. We believe the same reason caused him to refuse, in the face of the unanimous vote of the council, to insert or pay for an advertisement in THE ONTARIO. And the same reason undoubtedly it was that impelled him to persist in boring and insulting almost every Reformer who had to deal with him in his official capacity, by continual slurs on the "Grits." He had not the good sense to keep quiet, but on almost every possible occasion aired his views and maligned political opponents in the bitterest and most insulting manner.

The Intelligencer asserts that THE ONTARIO had been instructed to squelch Mr. Wills. We object to our contemporary measuring our corn in his own half bushel. It may be run by Mr. Wills or Mr. Bowell, or by any one else who has a hand in the machine, but THE ONTARIO has acted in this, as in all other matters, independent of outside dictation or even request, and it will continue to do so. The refusal of the Treasurer to honor the taxes was personally a matter of insignificance, but when he wheeled the Bombastes Furioso of the Intelligencer into line to malign THE ONTARIO and impute improper and unworthy motives, it was time to speak out,—and we did.

The Intelligencer asserts that a "caucus was held at which THE ONTARIO alleges certain worthies were bound presumably by some red hot oath, to oust the Treasurer under a plea of economy." Bombastes simply lies. THE ONTARIO only stated that certain members who had expressed the opinion that the Treasurer's salary should be reduced had gone back on their word to vote for such reduction. What was the reason for their change of view did not appear on the surface.

It is not our intention at present to refer at length to all the vile insinuations of the organ of plunder. THE ONTARIO has never been paid for any but work done legally, and at commercial rates. In printing which came under the control of of the County Council the Intelligencer has always got the big share, and when it comes to the city, it's "God bless little Diamond, he looks out for us." But the son-in-law organ wants the world.

The opinion of the Attorney General, backing as it did that of John Bell, Esq., and upsetting the illegal plea of Wills, is an excuse for an insinuation that the opinion was influenced by representations from members of the council. Doubtless there may have been others who applied to the Attorney General as well as Wills, but the nasty little insinuation is worthy of the nasty little mind that made it.

The organ assails Messrs. Ashley and Vermilyea for drawing a great deal out of the treasury, and by first giving the total amount and then some of the larger items this fair minded journal tries to give the public the impression that double the amount really paid was received by them. We presume it got the figures from the Treasurer, but if the latter had the arranging of them as they appear in the Intelligencer, they do not speak highly of his style of book-keeping or honor. It further makes the statement that though Mr. Vermilyea is this year only entitled to $15.40, he has managed to draw already $42.15 additional." He has, has he? Well, what was the doughty Wills doing while Mr. Vermilyea was at his burglarious work? We thought Wills was the custodian of the "county chest," if not of the county. Why did he let him get that "$42.15 additional?" The explanation is simple, and had Mr. Wills, or Bombastes, been as ready to make honest statements as they are to impute unworthy motives they would have given it. The $42.15 additional was for services rendered in obedience to the orders of the council of 1885, but performed after its last meeting,—services which have saved the county at least $6,000 for the current year.

Has Bombastes nothing to say about the beautiful way in which the Treasurer used to be remunerated when acting on a committee or deputation? Besides his expenses he received $3 a day and his little salary of $5 a day went on all the same. If councillors were on the same deputation they only received the same pay without any remuneration for time lost from their own private business. That's where the shoe pinches. That little bonus of $3 has been cut off, and Wills gets it no more.

THE TORRENS SYSTEM.

During the last session of the Ontario Legislature the Government introduced a measure known as the Torrens system of Land Transfer, as an experiment to have effect for the time being in the County of York only. The result of the experiment is that it is now proposed to extend its operations over the whole Dominion. The Torrens system has much to commend it. In the Australian colonies, where it has been in operation for many years, it gives universal satisfaction. If adopted in this province there is no doubt it will also prove popular.

The peculiar feature of this system is that the title does not pass, until the registration, from the grantor to the grantee. A person wishing to sell a piece of land, makes a short memorandum of the sale, which he hands to the registrar with his certificate of title. The registrar issues a new certificate to the vendee, and this certificate constitutes a perfect title. The transfer is cheap, simple and effective. Anyone possessed of ordinary intelligence and a common school education could convey his property without the assistance of a lawyer. Under the Torrens system trusts are not recognized; the title must pass absolutely from the registered owner to the purchaser, but where there is a trust a memorandum to that effect is made in the register, and a title can only be given by all the trustees jointly.

THE LAND ALLOTMENT SCHEME.

Mr. Jesse Collings' land allotment scheme is one which is dear to the agricultural laborer's heart; and when the arguments in its favor are studied no doubts remains upon the wherefore. An eminent medical authority declares that in Leicestershire he found that the laborers' children were dying for want of milk. And why? Because the laborer was allowed no land upon which to keep a cow; the commons which a century ago covered millions of acres, have in the intervening period been nearly all stolen or reclaimed by titled land thieves and corporations upon one pretence or another and the laborer's wages were too small to permit of his buying milk for his family. The scheme proposed by Collings and endorsed during the election by Joseph Chamberlain and now by Gladstone himself, is that compulsory powers shall be granted for the acquisition of land for allotment purposes and that a man receives an allotment at a fair rent and on condition that he cultivates it. [illegible] to give the laborer a [illegible] ship from which he can draw all his [illegible] tenance, as it is to afford him the means whereby he can grow garden stuff, keep [illegible] cow and supplement his wages. It is in this aspect really a proposal in the interest of the farmer. It will make his laborer more attached to the soil—it will permit his working at moderate wages, without drawing excessively from the earnings of the farm—and it will give him that increased comfort which means improved standard of education, intelligence and prosperity. Viewed all round, the allotment scheme promises a distinct gain to the national prosperity.

EDITORIAL NOTES.

THE Conservatives have developed a new policy this season, says Pica in Toronto News. It is something like this: They say, "There has been too much feeling developed between the two parties in this House; enmity has arisen that is most deplorable; we on this side may differ from you on that side, but we do so because we think we are right and you are wrong; however, in so differing there is no need of quarrelling; we are perfectly loyal in what we do; and on most questions are prepared to work in harmony with the government of the day." In other words, they practically assume the position that they have had fighting enough, and therefore that partyism in local affairs is to be deprecated. No doubt the position is quite correct, having thought to the fighting strength of the Conservatives in the House.

THAT [illegible] of patriots, Meredith and Morris, are anxious to prove that the Indians have a "title" to the land that Sir John tried to filch from Ontario to make a sort of "Bribery Reserve Fund" of. But they don't pretend to wish the Indians to have the land. Not a bit of it. Their little contention is that Sir John's government inherits all Indian land claims, and so, if the lands belong to the aborignes, Old To-morrow would still have the handling of the timber and the minerals and other resources of the territory. He was foiled in his direct attempt to get possession, and now he has invented this excuse for trying to keep his hands on Ontario's resources. However, there is not the slightest likelihood of his getting the start of those by whom his schemes against Ontario have been so often defeated.

A. A. DICKSON, of Montreal, manufacturer of electrical instruments, has filed a petition with the Minister of Agriculture, with a view of testing the validity of a patent for the Blake transmitter held by the Bell Telephone Company. In 1879 letters patent were granted the Blake inventor by the Patent Office. In 1880 he assigned by deed the right to sell and manufacture to the Canadian Telephone Company, and they in turn assigned to the Bell Telephone Company in 1882. As the petitioner has manufactured these articles a dispute has arisen as to his right to do so, and the case is brought before the Minister so that the point may be definitely settled. It will be heard in March.

A PAYING INVESTMENT.

He that hath pity upon the poor lendeth unto the Lord, and that which he hath given will he pay him again.—Prov. 19, 17.

He that hath a bountiful eye shall be blessed, for he giveth of his bread to the poor.

Blessed is he that considereth the poor: the Lord will deliver him in time of trouble the Lord will preserve him and keep him alive, and he shall be blessed upon the earth, and thou wilt not deliver him unto the will of his enemies. The Lord will strengthen him upon the bed of languishing. Thou wilt make all his bed in his sickness.—Ps. 41, 1-3.

TWO HUNDRED THOUSAND POUNDS

"The strongest-minded women indulge in exaggerations now and then."

"But not in direct lies, I hope."

"It is possible. You have such a clever way of making things you like seem right and expedient. For instance, your marriage with me should have been an impossibility, whatever the gain, if you hated me as you say, and yet I suppose you argued yourself into the belief that it was a pious martyrdom, meaning all the while to accept the advantages of the position, and evade its duties if possible. But I think it right to tell you, madam, that I am not a fool. You are my wife. I have given a high price for the privilege of calling you by that name, and every right the law allows me I shall rigidly enforce."

Berta covered her face with her hands and burst into a wild passion of tears.

She had found her master, and she knew it.

If she might but have died on the eve of her miserable marriage day, and saved herself the sorrow and humiliation of belonging to a man who was as unmerciful as he was strong.

It was no use bemoaning her hard fate now; for even through the bitter flow of her tears she felt her wedding-ring pressing coldly against her face, and realised its terrible restraint.

Walter was evidently touched by her emotion, for his tone softened visibly.

"Come, Berta," he said, "there can be no drawing back now. Why not make the best of the position? I am ready to do my part, if you give me the least encouragement, and you may be happy yet, if you will. Won't you try?"

This was wise counsel, and Berta was too sensible not to recognise it as such.

But her repugnance for this man was something she could neither explain nor conquer—a violent instinct of repulsion, which had increased fourfold since the fatal ceremony which bound her to him for life.

Was there no way of escape?

Heaven pardon and man pity her—for a minute the thought of self-destruction came to her as a relief.

They were driving along by the river, and Walter had covered his eyes to shut out the sight of the moving waters.

There was only to open the door before he had time to prevent her, and with one spring bury all her griefs in the calm deep waters.

The almighty would forgive her, knowing how sorely tried she was, and no one would mourn her long.

It was the way of the world to soon forget those who were gone.

Berta gazed hungrily out on the treacherous river, rippling so gently in the summer sunshine, and it seemed to her a very cheerful death.

She had heard that it was not painful, and even if it were, could its physical pangs equal the mental anguish she was enduring at this moment?

It was a horrible temptation, and one she would have yielded to assuredly, only that just as she placed her hand on the carriage door to wrench it open, she suddenly remembered the despairing look in her father's eyes as he pressed her to his heart and whispered—

"God bless you, my noble child, and reward you for the brave sacrifice you have made for me this day."

Berta's hand dropped to her side again.

She could not add to his sorrows who had already so much to bear.

Whatever she might suffer, she must live for his sake.

Little did Mr. Dale guess that by that agitated blessing he had saved his daughter's life.

Walter looked up as they turned into a road that led away from the river.

His face was haggard and disturbed; his lips tremulous.

"One night almost think I had hydrophobia, I hate the water so," he said, with a forced laugh. "You will not wonder when I tell you that my mother was drowned, and I stood helplessly by, and saw her perish before my very eyes, without the power to save her. I have had a feeling ever since that I should die in the same way."

"I should not mind such a death," answered Berta, with cold gravity. "There are many worse."

"Not to me," and he shuddered convulsively. "You do not understand my feeling, I see."

"I am afraid I don't; I should not mind doing so. My only wonder is that you did not try to save your mother's life, even if it cost you your own."

"I did; but as I cannot swim, I only endangered myself without helping her."

"How long is all this ago?" inquired Berta, with cold incredulity.

"Years," he said; "but there are some things that never lose their vividness and terrible reality."

There was a long silence then.

Walter seemed to recover himself gradually, and when they reached the station, he appeared to be quite in his usual spirits.

The train arrived just as they did; but a coupe had been secured beforehand, and the porters, who knew that a happy bridegroom is always generally disposed, were very zealous in their service, receiving half a crown each for their pains.

Berta would have been thankful if they might have gone in one of the ordinary carriages, so that she need not have been alone with her husband, but she dared not even hint at this.

So she took her seat with the air of a martyr, and wished herself in the river again with all her heart.

They reached town about nightfall, and if Walter had been a stranger, Berta would have said he had been very agreeable.

He exerted himself to amuse her, and never even once referred to his position or his claims.

Under this aspect he was just endurable, and Berta could manage to be civil, although she would have been thankful to know how they were going to part at the station, never to meet again on this side of the grave.

CHAPTER VII.

BOUND TO BE IN STYLE.

A writer to the New Orleans Picayune tells the following story of a gay Mexican who lately visited an eastern city. His whole life, though an American, had been passed in Mexico, and he being a skilled miner, metallagist and all other things a man needs be to deal in ores, he was employed by a mining company, and had had called to visit one of these gentlemen, who lives in princely style. A white night shirt was laid on his bed, with a wide, blue edged ruffle around the collar, down to the bosom and around his cuffs for his sleeping comfort. The following day being race day (as racing was going on), he presented himself at breakfast with said garment on, and the gorgeously-trimmed collar, spread to its fullest extent over his coat collar. All day, bland and smiling he walked around carrying the vast wealth of cotton tucked away, and blue ruffle finishing off the effect of a broad sombrero, with the gay Mexican band; and all believed who were not in the secret, that this was the garb of a Mexican beau. Doubtless he surmised this was American hospitality, providing a garment for a festive occasion, such as the races furnished.

AURORA, Ill. Feb. 3.—Clifford C. Stevens last night night discovered Chas. H. Ross, aged 18, son of a city newspaper man plundering his store. Stevens started with him for the Town Hall, and had nearly reached there when Ross shot him twice and killed him. Ross was jailed.

AN ESSENTIAL OF HEALTH.—One of the prime essentials of health is the secretion of the bile by the liver in due quantity and of a proper quality for the uses which Nature has ordained for this important secretion. Its gentle stimulating and potent regulating action upon the biliary gland constitutes Northrop and Lyman's Vegetable Discovery and Dyspeptic Cure a most valuable specific for Liver Complaint. Among the consequences of its continued and systematic use are the disappearance of such symptoms of chronic biliousness as constipation, nausea, pain in the vicinity of the organ affected yellowness of the skin, fur upon the tongue, and headache. No finer remedy for dyspepsia exists, and its remedial value has been signally demonstrated in kidney complaint, scrofula, female weakness, salt rheum, erysipelas, and all disorders arising from impurity of the blood. The vigor with which it endows a feeble physique, is shown in an increased activity of every vital function, and its effects, though potent, are followed by no hurtful reaction. The bowels are relived naturally and easily, and it is not disagreeable to the taste, and the purity and wholesomeness of its botanic ingredients make it a far safer as well as more efficient remedy than preparations containing mercury, designed to effect the liver beneficially, which sometimes do more harm than good. Large doses of it are not required, and it is, therefore, in reality far cheaper than other cathartics. Price $1.00 per bottle. Sample bottle, 10c. Ask for Northrop and Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a FAC-SIMILE of their signature. Sold by all medicine dealers.

HOLLOWAY'S PILLS.—Indigestion and Liver Complaint.—The digestion cannot be long or seriously disordered without the derangement being perceptible in the countenance. These Pills prevent both unpleasant consequences; they improve the appetite, and with the increase of desire for food, they augment the powers of digestion and assimilation in the stomach. Holloway's Pills deal most satisfactorily with deranged or diseased constitutions of the many organs engaged in extracting nourishment for our bodies from our various diets—as the liver, stomach and bowels, over all of which they exercise the most salutary control. By resorting at an early stage of this malady to these purifying and laxative Pills, the dyspeptic is speedily restored to health and strength, and his shallowness gradually vanishes.

THE MEDICAL BOARD.

The Cases Presented for Their Consideration in Belleville.

The Medical Board adjourned last night There were a large number of soldiers who came in the afternoon and presented their claims for compensation for injuries received in the rebellion. In addition to those published in THE ONTARIO were: Pt. Anderson, of G. Co., 57th Battalion, heart disease, a very serious case; Cook, one of French's scouts, shot in the left knee on the first day of the fight, bad wound; Archibald McLean, D.Co., Millbrook, acute rheumatism, arising from the unnecessary forced march of Col. Williams from Swift Current to the Saskatchewan Landing and lying with his knees in water all night in the rifle pits; Pt. Weese, of G. Co., who fell in the ranks at Winnipeg frem fatigue; Lt. R. J. Bell, H. Co., Belleville, serious injury to his eyesight from exposure along Lake Superior and on the prairies; Pt. W. Gordon, A.Co., Belleville, scurvy; Sergt. W. T. Watts, H. Co., Belleville, rheumatism; Sergt. G. Wilson, H. Co., Belleville, brain fever. Lt. Bell's injuries, it is feared, are of a permanent character, and there is no doubt his application will be granted, but many of the others were disallowed.

THE WATER RISING.

Property Threatened by the High Water and Streets Flooded.

The high water is threatening further damage, and no one, it appears, can devise any means to avert the injury to property which must ensue. The channel cut in the ice from Wallbridge's corner to Wharf street has done a good deal of good, but it is not large enough to carry off the immense volume of water which is coming down the Moira now. Certain residents are of the opinion that if a channel had been cut up the harbor to the new ferry slip some relief would have been afforded, but the blasting at the Grand Junction dock did no good whatever.

The water has overflown the western bank of the river and now extends as far west as Everett street. Coleman street from Mr. Parmalee's to Bridge street is inundated, as well as many acres below that. The foot-bridge lane is flooded and traffic over that bridge has been suspended except to those who wish to save the cord wood piled on the north side of the yard. The water is much higher than it has been this winter. It is doing immense damage to the two hotels below the Queens and the private residences in that locality.

AN EMINENT TRAGEDIAN.

Mr. Geo. C. Miln, the celebrated actor who appears here Saturday afternoon in "Richelieu" and in "A Fool's Revenge" in the evening is thus spoken of by the Ottawa Free Press: The attendance was by no means commensurate with the merit of the tragedian's splendid impersonation of the crafty cardinal of France, but was appreciated to a degree seldom evinced by the play-going public of Ottawa. It was evident that Mr. Miln's portrayal was deeply upon his auditors, whose interest intensified as the piece progressed. His has above all a slndarly and refined conception, tinged with the strong personality which he has had the boldness to infuse into his interpretation. This is stikingly evident throughout the entire play, and distinguishes Mr. Miln from the many mere imitators who please the public for the moment, but whose impressions are as evanescent as their fame. As a tragedian, Mr. Miln has advanced with rapid strides in popular favor, and is bound to win the wide recognition which sooner or later true genius never fails to impel.

THE THURLOW LARCENY CASE.

Myron Jones and George Loudon were brought up on remand at the police court this morning chaged with larceny. The prosecutor asked to have the case further continued until Monday, all the prisoners were taken back to the gaol.

Constable W. B. Phillips last night went to Jones' house and after making a thorough search of the premises found some bedding, blankets and sap-buckets that were stolen from James Foster in Huntingdon, last October. The articles were brought to the city. Jones will be arraigned on a second charge of stealing.

CURLERS GONE EAST.

The following members of the Belleville curling club left for Brockville last night: Messrs. W. H. Biggar, D. M. Waters, E. Donald, J. Jenkins, Jas Gordon, J. D. Clarke, A. McFee and W. Bullen. The skips are Ald Biggar and Mr. Jas Gordon, They will play a match with the Ogdensburg rink for the Royal Caledonian medal, and the two rinks will play Brockville and Ogdensburg for a position on the tankard competition.

English Curch Tea-meeting.

A tea-meeting and concert will be given in the Town Hall, Sidney, Thursday night in aid of the organ fund of the church of England mission. An excellent program has been prepared and addresses are expected from Revds. Halliwell, Sibbald and Bleasdell. Tea will be served at 6:30. Tickets 25 cts.

A Tragedy at a Revival.

DORA, Ind., Feb. 2.—Two years ago Ida Pavey eloped with William Oates, Recently they returned and settled down on a farm. The Paveys disliked Oates, and last night Charles Pavey entered a hall where a revival was being held and shot Oates dead. In the confusion Mrs. Oates dropped her baby on the floor and it was stamped to death. Pavey was arrested.

LETTERS TO THE EDITOR.

We do not hold ourselves responsible for assertions made, or opinions expressed, by correspondents.

SIR:—A report is being circulated through the adjoining country, as well as in the city, that the Rev. Mr. Haslam who lately conducted the mission in Christ Church, ran up a bill for liquors at the hotel where he was entertained while in Belleville, which bill the committee of the church had to pay.

I am requested to state that this report is a malicious slander, being false in every particular.

Both Mr. and Mrs. Haslam are total abstainers, not using liquors in any form whatever.

Your kind insertion of this will confer a great favor.

Truly Yours,
JAS. W. DUNNET.

DEMORESTVILLE DOTS.

From Our Own Correspondent.

DEMORESTVILLE, Feb. 3.—Our ordinary village life of late has been running along quietly in its ordinary channels with very very little of incident or adventure to note. The prevailing sentiment is that times are hard and money scarce. Farm produce is very low in price and everything governs accordingly. Wood is coming in freely at very moderate prices. The hop produce, which is one of the leading productions of this township, is in no demand.

The Barton Bros. are fitting up the late M. E. church as a very nice carriage shop.

Mr. Isaac Eaton, of Ameliasburg, conducted services very acceptably on Big Island last Sabbath in the morning on the north side, in the evening in the south church. The Belleville band are announced for the latter church for an all day service on Sabbath next.

A CONVICT'S MISTAKE.

Convicts were engaged in drawing rebbish out of the penitentiary yesterday. A few days ago the warden gave the guards at the gate instructions to prod every load that passed out, to see if there were any convicts beneath, he having heard, through some means or other, that an attempt at escape was about to be made. About eight o'clock, a load of straw was passing out of the west gate, when a guard seized a fork and sunk it into the straw, and the result was a terrible shriek and the sudden bounding up of a man, who proved to be one Andrew McGuire who was sent from Cobourg last November for five years, for shooting his father. A prong of the fork gave him a stab on the spinal column that made him give up all thoughts of escaping.

AMERICAN SPARKS.

Secretary Bayard's private secretary says that he has no intention of resigning.

The fire at Brownwood, Texas, this morning destroyed almost the entire business portion of the city.

The West Avenue Rink, Columbus, O, was burned yesterday. The panorama of the Battle of Gettysburg was destroyed; loss, $10,000.

Gen. Wilmot C. Desaussure, of Charleston, died at Orlando, Fla., yesterday. He was once President of the Cincinnati Society and a prominent Mason.

The steamer Eolus, which ran on a rock at the north end of Conanicut Island on Saturday night, was successfully hauled off yesterday. She is badly damaged.

Several men were injured, one fatally, while repairing the bridge across the Des Moines River at Pittsburgh, Iowa, which was carried away by high water last spring.

Meeting of a Literary Society.

The weekly meeting of the Ontario Business College literary society last night was a great success. Mr. Jas. T. Caldwell was chairman. The readings, songs and recitations were well rendered, and the instrumental part of the program given by Mrs. J. B. Aylesworth, wife of one of the students, was highly appreciated. The attendance at the college is very large.

A Successful Assembly.

Prof. Roderick J. Macdonald's first of a series of assemblies were held in the Oddfellows' Hall last night. There were about thirty couple present, and a most enjoyable time was spent. The next assembly will be given on Tuesday night next. The music was furnished by R. Gardner's orchestra.

A Fiend Shoots Five Persons.

LYONS, France, Feb. 2.—A man named Tony Guignais grew enraged at the refusal of a girl to live with him, and shot her. He then tried to escape, but was pursued by a crowd. He fired several shots at his pursuers and wounded two soldiers and a civilan. Guignais took refuge in his lodgings where he was arrested after a desperate fight. The girl and five men whom he shot are all severely wounded.

FOR THE FARM.

Dangers of Farmers; Many Farmers are Lost and Owners ruined.

As my father, and also my grandfathers on both sides, were successful farmers. I was taught to think that tilling the soil was the safest of the occupations of man; and so it was in days before the advent of the railway and the speculation of our times. Now, steam power makes the town or city not only easy of access to the husbandmen, but makes it more alluring and dangerous than in the days of our fathers. In this lies the greatest danger to the farmer, and if he gets the habit of running to the town or city, when he has no visible business, he is soon ruined in credit and character. We can call to mind scores of men who were four-handed farmers and who squandered a good fortune and brought their families to indigence and shame by running to town when they should have been at home.

Returning to my native valley, a year since, I was surprised and pained to learn of this farmer and that, who had lost their good names and their farms by selling out and becoming a village resident, till all was gone. At least a dozen of the most substantial men, whom I knew eighteen years ago, had been ruined, financially and morally by selling out their farms and moving into town. Between endorsing, speculation, fast horses, fast women and drink they were ruined. And what has occurred in the beautiful valley of Cambridge is also transpiring here in the fruitful valley of the Genesee. Here, in the county of Monroe, the writer has in his mind's eye as many more who have run through their estates by establishing their headquarters in the attractive city of Rochester while managing their farms.

Winfield Scott was defeated at the battle of Manasses because he attempted to do something he never did before, i. e., fight a battle without being personally in the field. Instead of having his headquarters at Washington, if the hero of Lundy's Lane had been present in person, to inspire the Union army, victory would have been assured. If this maxim is true in war it is also true in agriculture.

It also may be considered an axiom, so much has the writer seen verified by his observation of farmers, that the man who constantly runs to town when he should be at home leading his men and seeing to his work, is sure to be sold out or to sell out in the end. Quite lately we learn that a noted farmer managed a farm out of town, but had, for a number of years, made Rochester his headquarters. Who is surprised to learn that he farmed it out of pocket and owes more than he can pay?

Take the case of another, of recent occurrence, who had the habit of running to the village and who, selling out a fine farm, became a citizen of the place and a setter in groceries and hotels, to the tune of two dollars a day, for treating, cigars and drink, till all was gone.

It is also dangerous to health for a farmer who is used to an active life to change his business. If he is not injured in morals or estate he suffers, and often cuts short his days by indolence and ease, and by a change of habits, induced by a change in business. Much more might be said on the dangers of farmers in these days, but enough has been alluded to, to make it plain, that no man, however gifted, can farm well on paper, on the cars or after fast horses and that the city or village is no proper place for the husbandmen, only in the way of business, and that the attractions of all these, when their dangers are considered, are no offset for the security and independence of rural life.—American Rural home.

NEW YORK, Feb. 3.—The market has been built upon the short interest and we would be very careful about buying stocks. The good news which was to materially affect the market is in all probability the Pa. R. R. deal, and this was undoubtedly a lever against the short interest together with the fact that a pool representing the Vanderbilt interest were heavy buyers of L. S. N. Y. C. & C's. There is a growing belief in the statement that the N. Y. & N. E. deal is not over and that the refusal of N. Y. N. H. & H. to lease the road was very much magnified in order to depress the stock and shake out weak holders. Insiders claim that, while it may go off a little more, it will be rushed up again as soon as enough stock has been secured.

This morning's market has been weak under pressure of long wheat and pressure by the bear interest. The large local operators are on top of the market, the one exception being Mr. Hutchinson, who is said to be long. Some of his wheat is reported as having been sold to-day, how much, it is impossible to say, but there is no doubt but that much of long wheat was let go. The small move in the Northwest was represented as being due to farmers holding, and not to any scarcity. The fact is, most successful operators are bearing wheat, and their power is supreme. Corn is weak, in need of sympathy with wheat. Trading has been much larger than heretofore. Provisions was the only thing on the list that had any backbone. It held regular and bids fair to worry its shorts until they take their medicine.

Mr. J.H. Moon, Belleville, writes: "I have used four bottles of Northrop & Lyman's Vegetable Discovery and I think it is the best medicine that was ever made for Costiveness, and purifying the blood—I was so bad with Costiveness that I had to use injections daily until I used this medicine. I am now regular and feel like a new man, in fact better than I have felt for years. I have recommended it to other persons and they have found equal benefit from its use."

ITEMS OF INTEREST.

"We never see a tear in the eye," says a celebrated writer, "but what we are reminded of a warm heart."

Worms often cause serious illness. The cure is Dr. Low's Worm Syrup. It destroys and expels worms effectually.

SCOTT'S EMULSION OF PURE COD LIVER OIL, WITH HYPOPHOSPHITES In Turbercular Troubles of the Lungs.
Dr. A.F. Johnson, Cedar, Rapids, Iowa, says: "I have used Scott's Emulsion in Tubercular troubles, with satisfaction, both to patients and myself."

"Wealth," says Dr. Holmes, "is a steep hill which the father climbs slowly, and which the son often tumbles down precipitately."

EVERYBODY SUFFERS PAIN.—It is the result of sin and the violation of Nature's laws. The great Creator of the universe in his infinite mercy has done much to allay the suffering of his people by giving them out of Nature's storehouse a "balm for every wound." Such is the Pain-Killer made by Perry Davis & Son; It stops pain almost instantly, is used both internally and externally, and is of all other pain remedies the oldest and best.

If there is a right thing to be done, and we seem to pass through a wrong thing on our way to it, there's another way to it, and a better one.

The name of N. H. Downs' still lives, although he has been dead many years. His Elixir for the cure of coughs and colds has already outlived him a quarter of a century, and is still growing in favor with the public.

Soft words may appease an angry man—bitter words never will. Would you throw fuel on a house in flames in order to extinguish the fire?

Dont use any other nauseous purgatives such as Pills, Salts &c., when you can get in Dr. Carson' Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the Blood pure and cool. Sold by all druggists.

The apprehension of evil is many times times worse than the evil itself; and the ill a man fears he will suffer he suffers in the very fear of them.

Mr. Richard Birks, a prominent Montreal druggist, writes:—"I take pleasure in testifying to the general satisfaction the new perfume the 'Lotus of the Nile' is giving. My lady customers are delighted with it, and where a delicate and truly elegant boquet is desired I unhesitatingly recommend the 'Lotus of the Nile.'"

For a distance of 65 miles above and below St. Louis the Mississippi is blocked by a solid mass of ice.

Mr. W.R. Lazier, Bailiff, etc., Belleville, writes: "I find Dr. Thomas' Eclectric Oil the best medicine I have ever used in my stables. I have used it for bruises, scratches, wind puffs and cuts, and in every case it gave the best satisfaction. We use it as a household remedy for colds, burns, etc., and it is a perfect panacea. It will remove warts by paring them down and applying it occasionally.

Lord Bute's subscription to the widows and orphans of the 81 men killed in his Mardy colliery was £210—about one-third of a day's income.

Henry Clement, Almont, writes: "For a long time I was troubled with chronic rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to receive any benefit, until a gentleman who was cured of rheumatism by Dr. Thomas' Eclectric Oil, told me about it. I began to use it internally and externally, and before two bottles were used I was radically cured. We find it a household remedy, and for croup, burns, cuts and bruises, it has no equal."

A person who has lately visited Cooligo, Arizona on the Atlantic and Pacific road, saw there five Apache squaws, whose business appeared to be to buy all the ammunition and Winchester rifles they could get hold of. They appeared to have plenty of money.

DANGERS OF DELAY.
If we were allowed to look into the future and see the fatal consequences that follow a neglected cold, how differently would our course be; could we realize our danger, how speedily would we seek a cure; but with many it is only when the monster disease has fastened its fangs upon our lungs that we awaken to our folly. What follows a neglected cold? Is it not diseases of the throat and lungs, bronchitis, asthma, consumption and many other diseases of like nature. It is worse than madness to neglect a cold, and it is folly not to have some good remedy available for this frequent complaint. One of the most efficacious medicines for all diseases of the throat and lungs, is Bickle's Anti-Consumptive Syrup. This medicine is composed of several medical herbs, which exert a most wonderful influence in curing consumption and other diseases of the lungs and chest. It promotes a free and easy expectoration, soothes irritation and drives the disease from the system.
